It makes sense that this site was never included in a Cooperative Agreement between EPA and MPCA because this site is in the enforcement deferral pilot, and EPA has little involvement at those sites.

Hi Fred,

Linda Ross is the PO for MN and she has never had a site-specific CA for this site. Nor can we find any indication that the site was included in Management Assistance Multi-site CA.

Good Morning:

Would you please have someone in your office give Fred Gage the Cooperative Agreement and/or the Cooperative Agreement Number for MPCA related to General Mills/Henkel. The site is located in Minneapolis, MN.

Todd has attempted to locate the document in SDMS with no avail.

I have thus far been unable to locate a Cooperative Agreement with MPCA that includes the General Mills / Henkel Site. Using various search strategies in SDMS, I located a few mentions of the Henkel site in WDNR, IDEM, and MDEQ C/A documents – these are not responsive to what the requestor is seeking.
